

## Chertsey Gasworks, Pretoria Road, Surrey

### Our Services

- Acting as EHO/CLO on behalf of Local Authority to ensure compliance with Environmental Planning Conditions

### Geoenvironmental Consultancy Services

**CGL** was appointed by Runnymede Borough Council to act on their behalf in monitoring the environmental submissions and works at the Chertsey Gasworks site, which is being redeveloped by Explore Living as a residential development.

**CGL** was responsible for reviewing the documentation provided, including the ground investigation, remediation methodology and environmental monitoring strategy, and the works carried out, including remediation and monitoring, by the remediation contractor, Tamdown and the developer's consultant Enviro

**CGL** provided feedback on environmental issues to the Planning Department of the Council with respect to determining compliance with the Council's Planning Conditions. The first phase of the development is almost complete and the second phase is currently on hold whilst access issues are resolved.

Client: Runnymede Borough Council
